

The four pass-through zones make it easy to get in and out of Hopper without having to lift your leg over the bench or disturb your table companions. Its slanted legs and tabletop edges are a clear reference to the hop poles

that are so characteristic of the region. If you turn around, you can use the tabletop as a comfortable backrest.

Hopper AA (All Aluminum) is a mono-material picnic table with a sleek visual aesthetic, but designed with functionality in mind. Four pass-through zones at the ends eliminate the need to scramble

over the benches to reach the table. A picnic table at heart, this piece adds a playful yet architectural element to any indoor space or outdoor terrace.

Hopper shade

© Design by Dirk Wynants for Extremis, 2010

Extremis' headquarters are based in the only hops region in Belgium, so the hop gardens that dominate the landscape inspired us to design Hopper shade. The slanted poles of the Hopper canopy withstand a lot of stress, just like the poles of a hops garden do.
