NEN-EN13501-1 A1

Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.

Good to know

- Walrus corner seat is also available with two backrests, this way you have an extra storage pouch to hide blankets, cushions, atmosphere lights ...
- An ingenious storage pouch in the back of the Walrus hides a foldout blanket and a thick cushion, to provide the softness, comfort and touch appreciated in contact with your body.
- The comfort cushion filling is delivered inside the storage pouch. The Sunbrella cover comes in a separate colli.

F.A.Q.

Q: *Is it for outdoors?*

A: Of course, the parts that are permanently exposed to the elements are made of an extremely durable tarpaulin material that does not absorb any water.

TARPAULIN SOFA CUSHIONS

- The tarp material on the Walrus is easy to clean with Extremis Multi Cleaner and an Extremis brush.
- Dependent on the conditions the Walrus is placed in, we advise to clean frequently. (e.g. rain, dust, proximity of trees, pets, insects, climate).
- Also keep in mind that white is a more sensitive color for outdoor use.

SUNBRELLA BLANKETS & CUSHIONS

- Shake or brush off loose dirt immediately.
- Spray Extremis Multi Cleaner.
- Use a soft brush and make circular movements.
- Let the suds soak in for a moment.
- Rinse thoroughly to remove all soap residue.
- Simply allow to dry.
- It's also possible to put the blanket and the pillow covers in a washing machine (max 40°C). Follow the cleaning instruction on the label.
- If the cushion has metal brackets, we recommend turning the cover inside out first to avoid damaging the washing machine. In this case, leave the zipper open about 10 cm.

WOOD

- Clean regularly with mild detergent.
- Thorough cleaning with Extremis Wood Cleaner.
- Oil the wood with Extremis Wood Protector. We recommend oiling the wood at regular intervals depending from location and general weather conditions.
- In order to smoothen the surface again after a thorough cleaning, lightly sand your wood with 80 grit sanding paper or a sanding pad.

RECOMMENDED USE

- For Extremis Wood protector:

	
10 to 15 wood care treatments for a coffee table	75 - 100 ml for one coffee table
6 to 10 wood care treatments for a square table	100 - 150 ml for one square table
8 to 12 wood care treatments for a linking table	50 - 75 ml for one linking table
20 to 30 wood care treatments for a side table	25 - 50 ml for one side table

Warnings

General

- Do not use any sharp tools to open the packaging.
- We strongly advise against using power tools.
- Do not put out cigarettes on the sofa.
- Not graffiti proof.
- Do not leave children unattended whilst playing on the sofa.
- To avoid danger of suffocation, keep plastic bags away from babies and children.
- Colors can differ over years and from batch to batch.

Product

- We strongly advise to store the blanket & cushions indoors when the Walrus is not used frequently.
- Do not leave iron items such as needles, knives or tools to close to the magnets of the back cushions.
- People with a pacemaker should not come into contact with the magnetic field.
- Keep electrical equipment and data cards away from the magnetic field.
- Keep the magnets out of the way of open flames and heat.
- In order to open and close the storage pouch, Walrus should be placed in a distance of at least 50 cm from obstacles as a wall, the fence, the pool, ...
- Walrus is not a toy. Kids and pets don't belong in the storage pouch!
- Walrus is only compatible with Extremis cushions and blankets.
- Do not stand on the seat and do not lie down on the sofa with your shoes on.
- Keep pets and sharp objects away from the Walrus

to avoid damaging the fabric.

- Jeans can leave dye marks on the Walrus tarpaulin, just as they can on other seating fabrics.
- Max. 2 people or 160 kg per module.

Tarpaulin

- We advise to clean frequently.
- Clean the fabric regularly, don't forget to clean between the cushions, to prevent lasting stains.
- Keep in mind that white is a more sensitive color.
- UV color fastness: 7/8 (ISO 105-B02)
- Flame retarding: Flame speed <100mm/sec - ISO3795 1989.
- Leaves that are not swept off the seat promptly may start fermenting and cause stubborn stains. This is why we highly recommend that you do not put your furniture under a tree.
- Cushions in darker colors can get very hot in the sun. Be aware.

Galvanized steel

- Galvanization will become less shiny when used outdoors.
- Flame retarding - NEN-EN13501-1 A1 - Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.
- Possible impurities in the immersion tank can cause black marks during galvanization, which are intrinsic to this industrial finishing technique.
- White marks on this zinc layer are also intrinsic to this procedure and will disappear when the

furniture is put outdoors.

- This industrial finishing technique may result in a rougher surface. This is intrinsic to the process.

Sunbrella

- Not waterproof, store inside!
- Shake or brush off loose dirt immediately.
- UV color fastness: 7/8 (ISO 105-B02).

Fiberglass

- Wear gloves when assembling or dismantling the fiber glass rods. They can cause skin irritations.

Wood

- When delivered, the wood is untreated.
- Wood is a natural material and its look is different for every slat, plank and tree.
- Wood will gradually become rougher and start to turn grey as a consequence of exposure to the sun and rain. We recommend oiling the wood at regular intervals depending from location and general weather conditions.
- Clean regularly with mild detergent. Never use a high pressure cleaner as this will roughen the wood's smooth surface and irreparably damage the wood's fiber.
- Thorough cleaning with Extremis Wood Cleaner.
- We strongly recommend that you treat your wood with wood protector to protect it from stains - small cracks and crevices can also appear as part of this process. We strongly advise everyone to treat the furniture with our Wood Protector.
